

GANAGASABARINATH V N

Full Stack Developer | Python | JavaScript | Web Technologies

+91 97500 55010 | ganagasabarinath@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

81/A Venkittipalayam, Ellis Nagar Post, Dharapuram, Tiruppur – 638 657

OBJECTIVE

Motivated Full Stack Developer and B.Tech student in Artificial Intelligence & Data Science with hands-on experience building web applications and ML-integrated platforms. Proficient in Python, Java, HTML, CSS, and JavaScript with a strong foundation in databases and software development practices. Eager to contribute to development teams and deliver scalable, user-centric solutions.

EDUCATION

B.Tech – Artificial Intelligence & Data Science

Dr. NGP Institute of Technology, Coimbatore

CGPA: 7.34 (up to 5th sem) | Expected: 2027

HSC (Class 12)

Ponnu Matriculation Higher Secondary School, Dharapuram

Score: 80.6% | April 2023

SSLC (Class 10)

Ponnu Matriculation Higher Secondary School, Dharapuram

June 2021

TECHNICAL SKILLS

Languages: Python, Java, SQL, C++

Web Technologies: HTML, CSS, JavaScript

ML Libraries: Pandas, NumPy, Scikit-learn

Databases: MySQL

Domains: Full Stack Web Development, Machine Learning, Data Science, Business Analytics

Tools & Cloud: Google Cloud, Git, REST APIs

PROJECTS

GreenMetric Footprints – Carbon Tracking & Sustainability Platform

- Built a full-stack web application to help organisations measure, monitor, and reduce carbon emissions through structured calculations and visual insights.
- Implemented carbon footprint calculators covering energy usage, transportation, and waste, enabling data-driven sustainability decisions.
- Developed an interactive analytics dashboard displaying trends, performance metrics, and historical data.

AgriSmart – Cooperative Farming Platform

- Developed a feature-rich web application connecting farmers, workers, and buyers to streamline agricultural collaboration and resource management.
- Built role-based dashboards for farmers, workers, buyers, and admins with AI-powered crop advisory, marketplace, job/shift management, and analytics.
- Implemented multi-language support (English, Hindi, Tamil), responsive design, and real-time updates.

Smart Parking Management System

- Developed a parking management application to automatically allocate available slots and guide drivers with clear directions.

- Implemented dynamic slot assignment logic based on real-time availability with support for multiple vehicle brands and models.
- Enhanced usability by structuring vehicle details clearly and providing real-time parking status display.

AI Knowledge Assistant – RAG-Powered Chatbot Platform

- Developed an intelligent AI chatbot using Retrieval-Augmented Generation (RAG) architecture for contextual question answering.
- Integrated document ingestion, vector embeddings, and retrieval pipelines to ground model responses in relevant knowledge.
- Designed multi-turn conversational workflows with dynamic context management.

INTERNSHIP & TRAINING

AI & ML Intern – Gateway Software Solutions, Coimbatore *Jun 2025*

- Gained hands-on experience with real-world AI and ML application development in a professional environment.
- Assisted in data preprocessing, model training, and evaluation using industry-standard practices.
- Worked on developing and testing ML models and contributed to team-based software development workflows.

Generative AI Intern – Prodigy InfoTech (Online) *Feb 2026*

- Explored RAG pipelines, LLM-based application workflows, and prompt engineering techniques.
- Worked on AI tasks involving chatbot development, embeddings, and contextual system design.
- Gained exposure to modern generative AI tools and frameworks relevant to web-integrated AI features.

CERTIFICATIONS

- Building with Artificial Intelligence – Saylor Academy (80.39%)
- Simplilearn – Introduction to Generative AI Studio (Powered by Google Cloud)
- Simplilearn – Introduction to Responsible AI (Powered by Google Cloud)
- NPTEL – Human Computer Interaction (84%, Elite Silver)
- NPTEL – Introduction to Internet of Things (51%)

PERSONAL QUALITIES

- Curious & Innovative – always exploring new technologies and development approaches
- Strong Communication Skills – able to clearly articulate technical ideas to diverse audiences
- Self-Motivated – independently pursues projects, certifications, and skill development
- Team Player – works collaboratively and adapts well in team environments

AREAS OF INTEREST

- Full Stack Web Development
- Artificial Intelligence & Machine Learning
- Data Science & Business Analytics
- Generative AI & LLM Applications
